CHEMPOSITE INC. JOINS AMCA INTERNATIONAL'S CERTIFIED RATINGS PROGRAM

The Air Movement and Control Association International, Inc. (AMCA International) announced that Chemposite Inc. of Delta, British Columbia, Canada has two dampers (round) licensed through AMCA International's Certified Ratings Program.

The following dampers are licensed for Air Leakage Air Performance:

Model AC510 Fiberglass Air Seal Dampers
Model AC511 Volume Control Dampers

The newly licensed models appear in "*Licensed Products*" under Chemposite Inc. on AMCA International's website (www.amca.org).

Under AMCA International's Certified Ratings Program, products are tested for performance in accordance with an AMCA or other internationally recognized method of test standard. AMCA International also verifies that the manufacturer's catalogues, printed or electronic, are accurate. All products undergo periodic check tests to ensure that conformance is maintained.

The Air Movement and Control Association International, Inc. is a not-for-profit international association of the world's manufacturers of related air system equipment — primarily, but not limited to fans, louvers, dampers, air curtains, airflow measurement stations, acoustic attenuators, and other air system components for the industrial, commercial, and residential markets.

The association's mission is to promote the health and growth of the industries covered by its scope and the members of the association consistent with the interests of the public. AMCA International, with origins dating back to 1917, has members in most industrialized countries throughout the world.
