

### LOCATION

Everett, Washington, USA

### YEAR

2000

### PROJECT SCOPE

Fabrication and supply of over 1000 feet of Piping for the White Stock Upgrade and Bleach Plant Scrubber Vent Line. Pressure rating ranged from ducting to 150 psi and sizes from 2"Ø to 30"Ø.

Specifications were according to Fiberglass Structural Engineering (FSE). Also, 24"Ø Underground Pipe spools and fittings for H<sub>2</sub>O loading were fabricated and supplied. Fabrication drawings were submitted.

### RESIN & CURE SYSTEMS

White Stock Upgrade Piping:  
Resin: Derakane 411

24"Ø Underground Piping:  
Resin: Derakane 411

Scrubber Vent Ducting:  
Resin: Derakane 510N c/w 3% Antimony Trioxide
